Competitive Employment Opportunities

Students with disabilities have a broad range of interests, talents, and goals - often all they lack are opportunities.

The **CEO Academies**—Mentoring Academy, Pre-ETS Academy and EXIT Academy—provide these students with real-world experience they need to realize their dreams.

MENTORING

Students are paired with mentors in their career fields of interest to create a "career focused project."

PRE-ETS

Students are exposed to work experiences in various fields in order to build career awareness.

EXIT

Students in their last year of high school learn tools to manage the expectations of postsecondary settings.

HOW YOU CAN GET INVOLVED

Become a Mentor | Become an Intern | Become a Supporter
